

# XPMA

(eXtensive Process Modelling and Automation)

*„Exchange tedious work for computer force!“*

# The Issue

IT industry today:

- Hi-Tech organizations
- Administrative organizations
- Amateurs

missing:

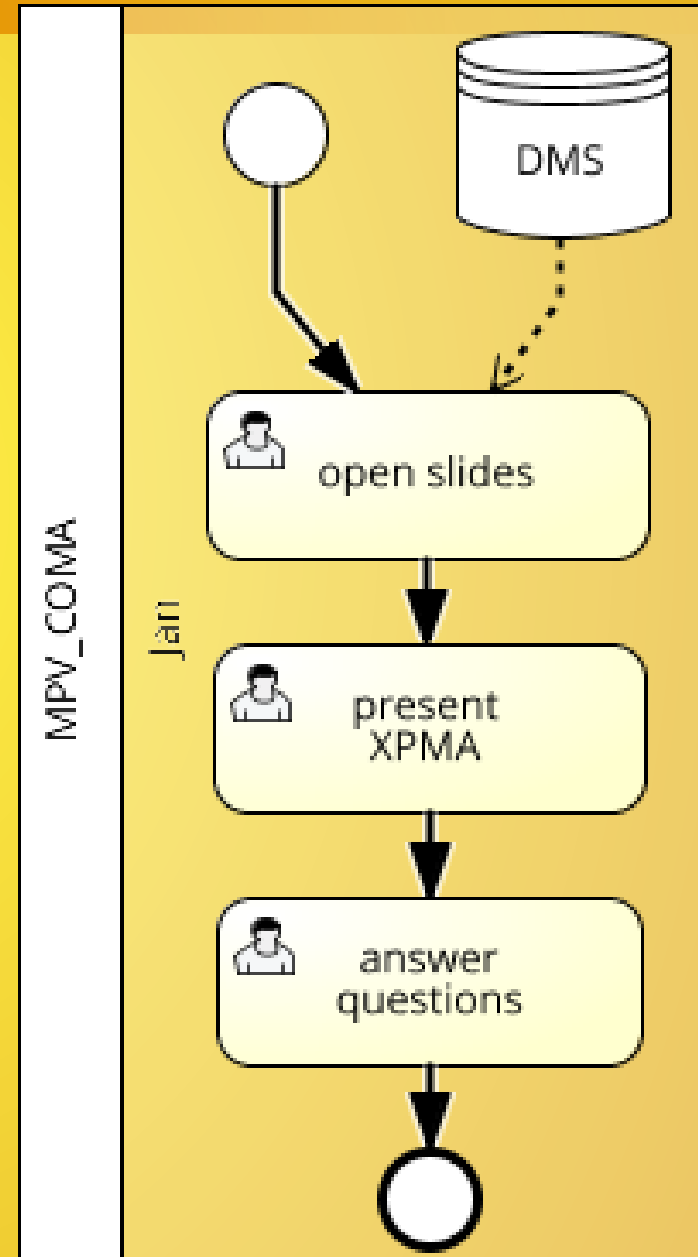

- SMEs
- ill-funded or low-budget organizations (schools, manual workers, etc.)

# Solution?

No silver bullet :(

# Processes

- Everywhere
- Intuitive
- Enough precise
- Transparency
- Effectivity
- Simplicity

# Wait!?

Why are they uncommon?

- People (end-users)
- Implementation quality
- Buzzword + prejudice
- **Missing data**

# XPMA

- Modelling - both processes & data
- Fully automated creation of the modelled system
  - No human failure
  - No cost
  - No time
- Power in hands of end-users
- Open source
